Professional Summary

- Full Stack MERN Developer with 1 year of experience building 3+ end-to-end web applications and REST APIs using React, Node.js, and MongoDB, with a focus on secure authentication, performance optimization, and scalable architecture.

Professional Experience

Full Stack Developer

Jul 2025 – Present

Quark Consulting

- Built and maintained MERN stack applications in a production environment, contributing to scalable frontend and backend modules.
- Developed and integrated REST APIs using Node.js and Express.js with MongoDB for efficient data handling.
- Implemented JWT-based authentication and role-based access control to secure application workflows.
- Designed responsive UI components using React.js and Tailwind CSS, improving usability and performance.
- Integrated n8n automation workflows and CRM systems to streamline business processes.

Full Stack Web Developer Intern

Jan 2025 – May 2025

Shanti Infosoft LLP, Indore

- Contributed to end-to-end MERN stack development, working on frontend, backend, and database layers.
- Developed and tested REST APIs using Node.js and Express.js, ensuring proper request handling and data flow.
- Built responsive UI components using React.js and Tailwind CSS for improved user experience.
- Used Git/GitHub for version control and Postman for API testing and debugging.

Projects

Property Management System

MERN, MySQL

- Built a scalable full-stack property management system supporting Admin and Landlord roles.
- Implemented role-based authentication with JWT, bcrypt, and 2FA (OTP) to ensure secure access control.
- Developed and integrated 20+ REST APIs for property, user, and workflow management.
- Integrated third-party services including accounting software and calendar systems for automation and scheduling.

Dental Care Website – Full Stack Application

MERN, n8n

- Built a full-stack application using React, Node.js, Express, and MongoDB.
- Implemented image upload and automated processing workflows using n8n for task automation.
- Developed and secured REST APIs with JWT-based authentication for protected routes and user access.

Resolve Hub – Customer Support Ticketing System

MERN

- Developed a customer support ticketing system with user and admin dashboards.
- Implemented ticket lifecycle management including creation, updates, and status tracking.
- Designed role-based access control for different user types.
